

3. Watch the BibleProject video and then read the quote below. How is *agape* love different from the ways we usually think and talk about love in our culture?

*Agape love is giving others what they need most when they deserve it the least.*<sup>1</sup>

4. Read Romans 12:9–21 as a group.
- If a group of people chose to live this way, what impact do you think it would have on those outside the church?
  - How might our church change if we grew in this kind of love together? Which line would you most want to experience more of in our community?
  - Imagine this section were describing the way you love others—God is at work in you so that it becomes more and more true! What’s one quality of love you want to focus on practicing this week? Why?
